

FISCAL NOTE

SB 1206 - HB 1730

February 19, 2001

SUMMARY OF BILL: Requires that all construction and maintenance activities of the Department of Transportation receive approval of the State Building Commission in the same manner as other state contracted construction.

ESTIMATED FISCAL IMPACT:

MINIMAL

Estimate assumes:

- Building Commission approval of highway projects for either construction or major maintenance will not significantly delay such projects.
- Project approval by the Building Commission will include authority for procuring rights-of-way.
- Blanket approval by the State Building Commission could be given to the department to allow correction of immediate emergency conditions.
- The State Building Commission can react quickly enough to avoid delay of maintenance projects that are needed as the result of unexpected occurrences.

Note: The Department of Transportation does not agree with the fiscal impact estimated for this bill.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

James A. Davenport, Executive Director

SB 1206 - HB 1730
